

WIKA Instruments Limited

Close to customers

About us

- The WIKA subsidiary in the UK & Ireland was formed in 1972
- DH Budenberg Limited, Irlam - acquired in April 2011
- Calibration Dynamics, Andover, - acquired in April 2011
- TC Fluid Control, Swanley – acquired in July 2012
- ASL, Merstham – acquired in January 2013
- Calibration Dynamics, DH Budenberg and ASL – became WIKA Calibration Technology – January 2014

Locations – close to the customer

About us

WIKAI

Part of your business

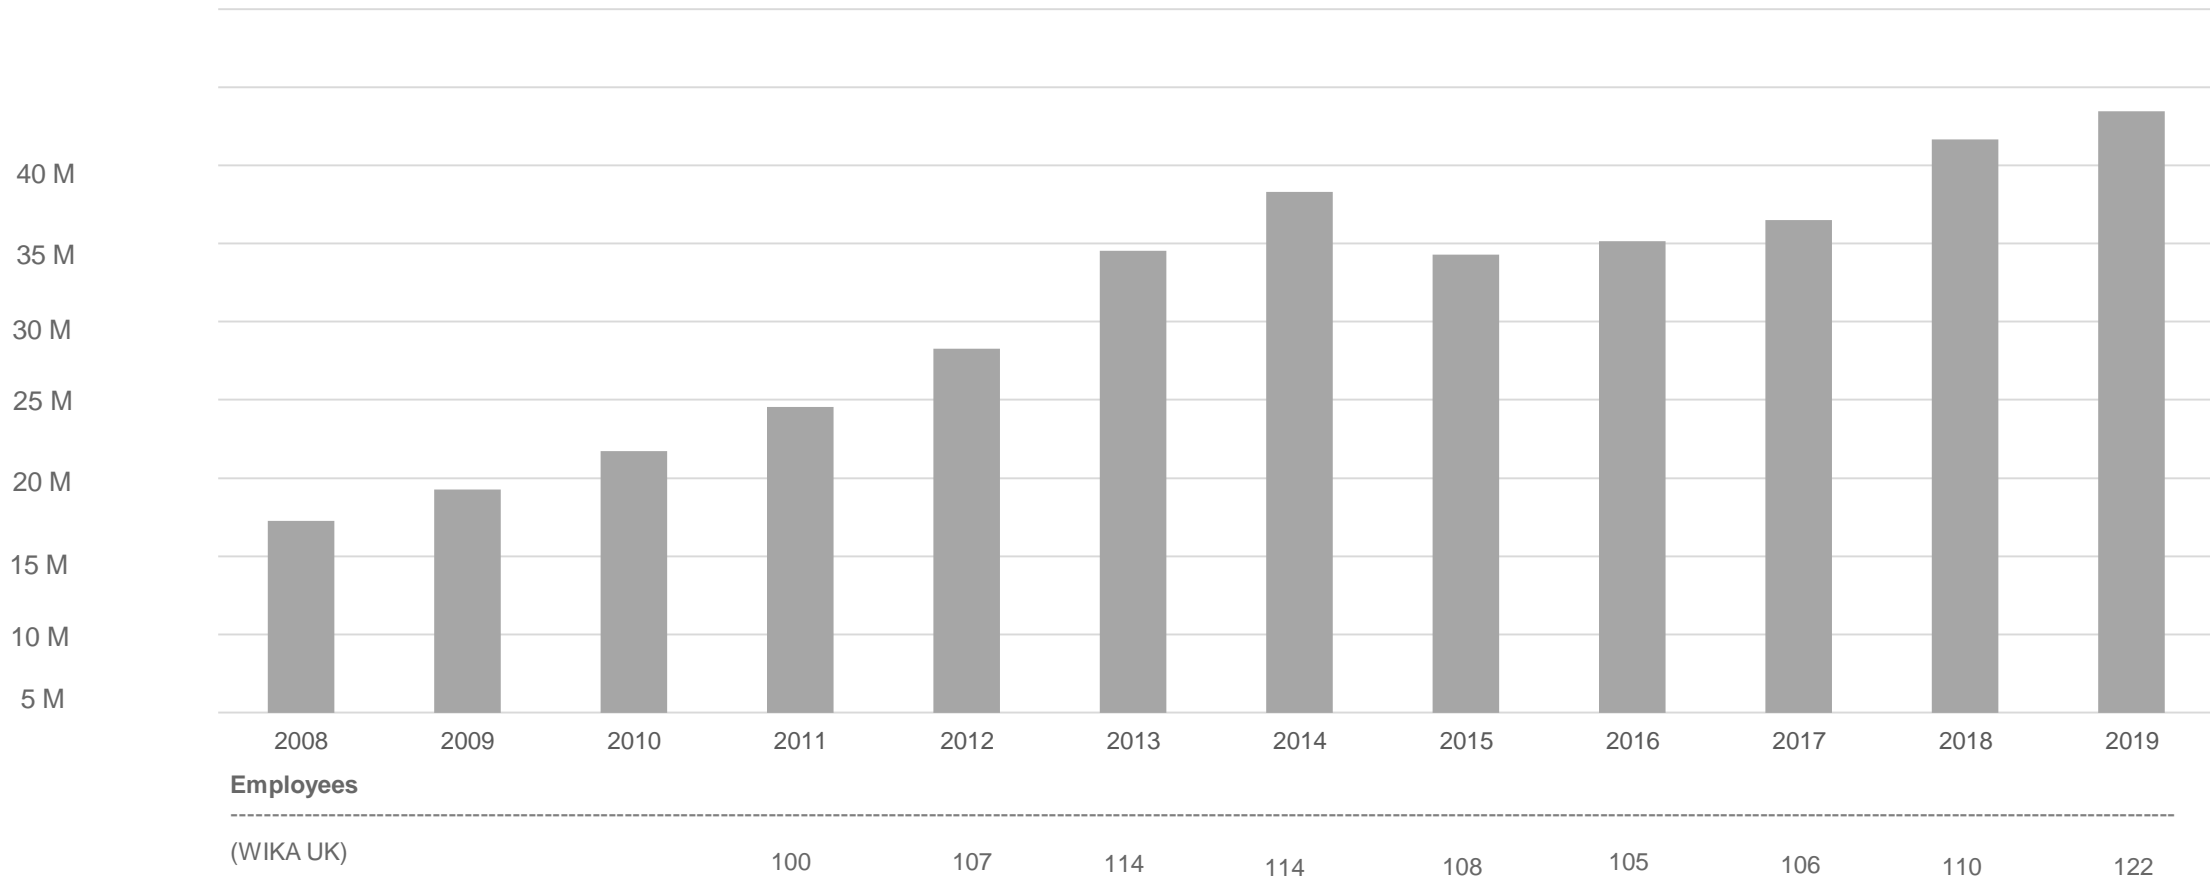

Locations within the UK:

- Merstham, Redhill
Process Industry and Industrial Instruments
- Irlam, Manchester, DH Budenberg
Industrial dead weight tester manufacture and development. ASL
temperature calibration manufacture and development.
- Swanley, Kent, TC Fluid Control
Level instrumentation manufacture and development

On a successful path

WIKAI UK Sales in GBP

Products

Process solutions

Stainless steel pressure & temperature gauges

Diaphragm seals including high pressure designs e.g. Galperti, RTJ & API

Mechanical pressure & temperature switches

Instrument valves, manifolds & DDB

Electrical temperature: RTD and thermocouples

Thermowell manufacturing cell

Hygienic portfolio

Primary flow elements

Bypass level indicators & switches

Process pressure & temperature transmitters
(ATEX, SIL, IECEx)

Specialise in multi instrument supply (MIV) to
Oil & Gas projects

Consolidated Calibration Technology

Products

Industrial solutions

Mechanical pressure gauges

Switch gauges

Mechanical temperature gauges

Thermocouples/RTD's

Pressure and temperature transmitters

Level transmitters

Pressure and temperature switches

Provide sales and support to a number of markets ranging from angioplasty inflation devices, domestic boilers and breathing apparatus to fluid power, mobile hydraulics and refrigeration.

Products

Calibration solutions

Temperature indicators, reference standards
and ratio bridges

Pressure balances

Dead weight testers

Pressure controllers

Digital indicators

Air Data Test sets

Pressure calibrators

Multifunction calibrators

CE Approved customised systems capability

Products

Level Solutions

Magnetic level gauges

Glass level gauges (traded from Klinger Italy)

Level sure gauges (combined MLG & GWR)

Instrument chambers (Major GWR manufacturers)

Magnetostrictive transmitters

Specialise in custom built chambers for level solutions –
ASME market – refinery & offshore to full NORSOK
specifications

Strong welding capabilities:

- Carbon steel - LT carbon steel
- Stainless steel 316
- 6mo (F44)
- Hastelloy C276
- Duplex (F51 & F53)
- Monel
- Inconel 625/825

Products

Manufacturing facilities

WIKAI

Part of your business

MERSTHAM

IRLAM

SWANLEY

- Thermocouples
- Resistance thermometers (RTD's, PT100)
- Analogue and digital temperature transmitters
- Thermowells

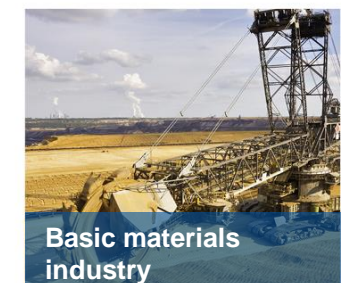

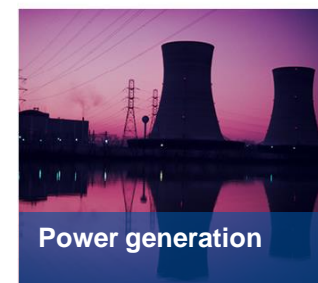

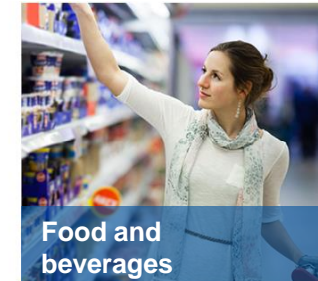

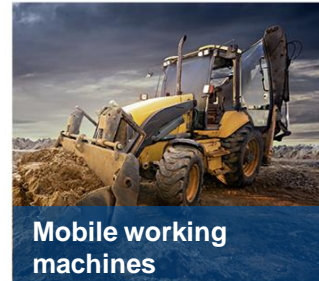

- Dead weight testers
- Pressure calibration
- Temperature calibration
- Service & repair

- Magnetic level gauges
- Level transmitters & Level Switches
- Instrument Chambers
- Magnetostrictive Transmitters

Competence

Able to meet any challenge

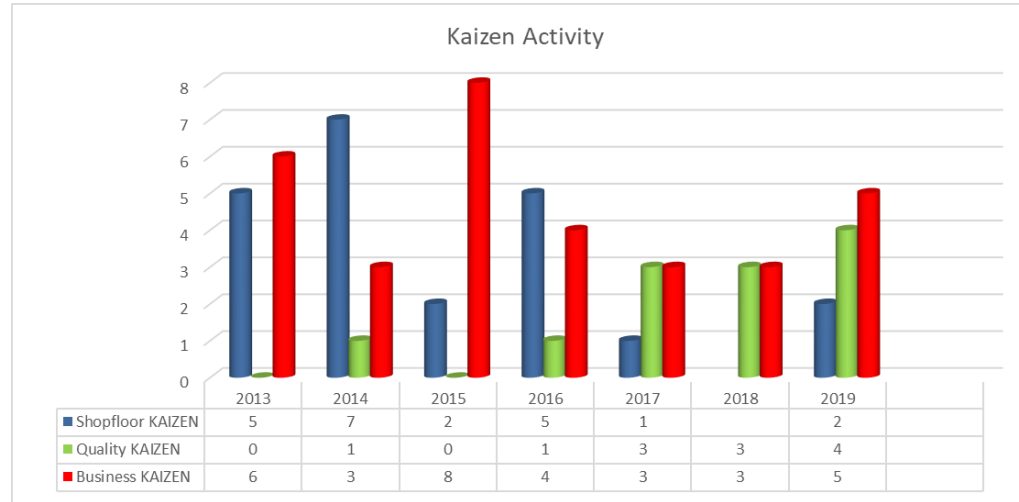

Quality Management

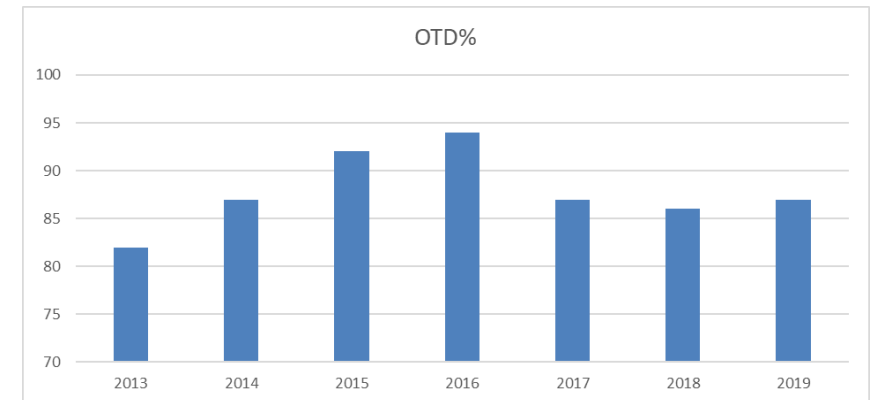

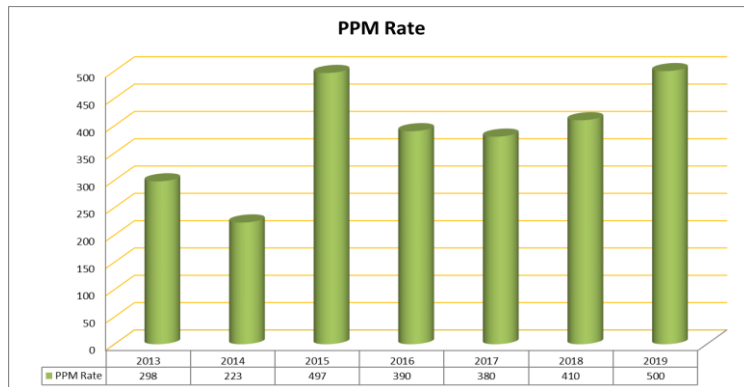

Continuous improvement

- Lean Manufacturing
- Kaizen culture
- 5s institutionalised
- Investment in technology
- 4D / 8D Methodology
- Supplier Development

Driving Results

Quality Management

Approvals and certificates

ISO 9001:2015
(Quality Management System)

ISO/IEC 17025:2005
(UKAS, testing and calibration)

ISO 3834-2:2005
(Quality Requirements for the Fusion Welding of Metallic Material)

EU Directive 2014/68/EU
(Pressure Equipment Directive)

EU Directive 2014/34/EU
(ATEX)

EU Directive 2011/65/EU
(RoHS)

Note: Certification against ISO/IEC 17025:2017 will occur in 2019

DH Budenberg: Irlam
9001
17025

TC Fluid Control: Swanley
9001
3834-2
PED
ATEX
RoHS

WIKAI UK: Merstham
9001
ATEX
RoHS

Service

Always there for you

- Technical support
- Engineering and training
- Calibration and service
- Electronic order processing

WIKAI

Part of your business

Conclusion

WIKA – your reliable partner

- Quality - Made by WIKA
- Worldwide sales and service network with more than 500 sales professionals
- Measuring instruments for pressure, temperature, level, flow and calibration technology
- Subsidiaries and sales agencies in over 75 countries
- Global manufacturing through worldwide production network
- Innovative partner for OEM applications
- Long-term security of supply
